He showed his ways of learning and played the piano. He made friends with some students there and kept in touch with them.

I think it is an unusual experience. It is necessary for the students to take part in cultural exchange activities. They can not only learn some useful cultural knowledge but also make friends with other people. It's a good way to communicate with other students.

On the subway, a boy felt awful and began to vomit. A lady who was dressed beautifully helped him to clean the floor. The boy gave thanks to the lady.

When the subway stopped at a station, the subway turned into a mess. People who wanted to get on the subway pushed madly towards the seats, which prevented the passengers from getting off. What's worse, some people even had a quarrel due to the mess.

As far as I am concerned, every individual is supposed to be helpful. I wish our world a better place and hope that everyone is willing to obey the rules as well as ready to help others.

The Story of Li Hua

Last Friday, when my classmate Li Hua took a bus home from school, he saw that someone was eating an orange. To his surprise, that man just threw the peel on the ground after he had it.

Without thinking twice, Li Hua picked up the orange peel and threw it into the dustbin directly. All of the process was taken photos and posted on the Internet by a passenger. As a result, our teacher knew his good behaviour and praised him because of what he did at the class meeting. Li Hua said he just did what he should do. We were all impressed by his words.

As far as I am concerned, the man who threw the orange peel around was not a good example, but luckily Li Hua set a good one for us. We are supposed to mind our behaviours and protect the environment around us all the time.

At the same time, you must have plenty of sleep in order that you won't feel sleepy in class. Therefore, your brain will be active as well. Above all, you'd better learn how to communicate. You can ask your parents and teachers for help when you have trouble and you can also share your happiness and sadness with your friends.

Finally, I sincerely hope you can achieve success and keep healthy from the bottom of my heart.

Yours,

Tony

So, we tried to catch up with them, but it was too late, and finally Class Two won the game. After the game, we felt very sad, and some students began to blame each other.

I think the process of a competition is more important than the result. We should learn from it, and find out the real cause of the failure, and then try our best to achieve a better result in the next competition, which is the most important for us. Do you think so?
