Florence Nightingale was born in Italy on May 12th, 1820. When she was 24, she told her parents she wanted to be a nurse. But they didn't like that idea. Nurses were not well respected at that time. The family had lots of money, so they thought it would be better if she didn't work. But Nightingale went on with her dream.

In 1851, Florence Nightingale was trained as a nurse. Three years later, she went to a British military hospital so that she could help British soldiers. Before she arrived, many soldiers died in the hospital because it was dirty.

Florence Nightingale worked hard to make the hospital clean and save many lives.

Florence Nightingale died in 1910 in London when she was 90 years old. Her birthday became International Nurses Day in 1974.

Hello everyone! For today's class report, I'm going to tell you about a person who made great inventions. He is Thomas Edison. He was born in Milan, Ohio on 11th February 1847. He was very clever at solving problems. But he wasn't a good student at school. That's why all of his teachers thought it was a waste of time to teach him. His mother had to take him home and teach him by herself. As a child, he showed such strong interest in science that he set up a lab on his own. He did many experiments. Actually, he had about 2,000 inventions in his lifetime. And the light is one of his most famous inventions. He died on 18th October 1931.

There are many ways to save the environment if you would like. Plant more trees. Choose a right place near your house. Plant a tree every month and encourage your friends and classmates to join you. There will come a day when you'll have a green land because of your hard work. Walk more and drive less. Choose to walk instead of taking a car. Walk or ride a bike to school if it is not far. By doing so, you are saving the energy, saving money and keeping healthy. Save water. Water is very important for

living things. It is we who use and pollute it. When you visit the beach, make sure you don't litter around. Don't pollute rivers by dropping rubbish and other waste. Hey, my classmates, let's take action now!

And then we watched TV for a while. At 12, we ordered lunch by phone. I ordered beef noodles, and Kate ordered dumplings. She said they were delicious. After lunch, the rain stopped and the sun came out. We went shopping. After dinner we went to the cinema. The movie was excellent for me, but Kate did not like it at all.

Hey, kids! I am Bing Dwen Dwen. Let me tell you something about Beijing 2022 Winter Olympics.

In order to make the Olympics better, technology played an important role in it. Smart robots helped to carry heavy things. Driverless cars took the players from one place to another. When the players felt tired, they could get in a driverless bus to have a rest. When they felt hungry, they could buy food from a "driverless car store". Some driverless cars could even send things to them just like a postman. Because of the epidemic, all the people in the Olympics needed to have tests every day. Sports centers in Beijing used some robots to make sure that everyone there was healthy and safe. Besides, people wore body temperature checks on their arms. Users could check their body temperature on their smart phones. If someone got a fever, the body temperature checks would report it. How smart they were!

我们的《中考专项》是一本考点划分很细的复习用书，它很适合于学生对每个考点的具体的练习，但是也不能满足所有人的使用需求：比如有些人觉得无法检验复习成果，有些人觉得题做完了却没做够，还有人想要卷子形式的整套练习，等等理由吧，因此我们特别推出《中考分类集训卷》系列，它与《中考专项》最大的不同是它“大”，首先，我们利用“大”数据分析天津中考的特点，将大量的天津的真题和模拟题进行分类，透析天津命题趋势，准确贴合天津考情；其次，我们划分的不再是具体的考点，而是利用“大”专题进行归类，将同专题的题目放到一个大专题里，特别适合对整个专题的练习，老师和学生使用起来也非常方便；再次，就是“大”练习，什么是大练习呢，就是说它是一本纯练习的书，题量相当大，满满的题，一言不合就是练；最后，就是它很“大”，因为它是一个8开的，它正好可以把两本16开的《中考专项》《中考汇编》包在里面，三本书配合使用，助你中考一飞冲天！
